

CellCarta has deep expertise in developing flow cytometry panels for clinical use and provides the highest standard of quality with CAP accredited and CLIA certified sites.

To support the monitoring of all immune cell populations, we catered a list of specific panels for both your whole blood and cryopreserved PBMC samples.

OFF-THE-SHELF PANELS

OTS panels were pre-developed and validated at all global sites with the same level of validation and provide the fastest runway to clinical sample analysis.

ABOUT CELLCARTA

Leading provider of specialized precision medicine laboratory services to the biopharmaceutical industry. Leveraging its integrated analytical platforms in immunology, histopathology, proteomics and genomics, as well as related specimen collection and logistics services, CellCarta supports the entire drug development cycle, from discovery to late-stage clinical trials. The company operates globally with 8 facilities located in Canada, USA, Belgium, Australia and China.

For more information on how CellCarta can partner with you, please contact us:
